Technical Support

- Directly from the manufacturer

CHAIN SOLUTIONS

CHAIN SOLUTIONS

Bulk Concept & Assembly Kits

- Cut to size
- Repair capability
- Small stock
- Large flexibly
- DIY
- Saving logistics costs
- Remote assembly training

Important note for planning

Usually a guide bar wears our every 2 to 3 chains and a sprocket wears out every 5 to 6 chains

The type of work and the material, water supply and operator skill affects the lifespan of the accessory
